

# HTML5 & CSS3 Lab 3

1

The image displays two screenshots of a web browser window showing a form titled "Change Email Address". The browser's address bar indicates the file path: file:///C:/Users/SD-Niveen/Desktop/itworx/sol/0... The form contains two input fields, "Username" and "Email", each with a red border indicating a validation rule. Below the "Username" field, a message states: "The required user name may only be a series of alphabetical characters." Below the "Email" field, a message states: "The required email address may not include any special characters other than the '@' sign." A "Change" button is located below the "Email" field.

**Change Email Address**

Username  
The required user name may only be a series of alphabetical characters.

Email  
The required email address may not include any special characters other than the '@' sign.
